

SPECIAL SEATING ACCESS TO THE CHURCH SANCTUARY

The easiest entrance to the sanctuary for those with special needs is the handicap entrance off College Street.

The easiest access will be from High Street. Go South on N. President Street, then left on College Street.

The handicap entrance is just before the intersection of College and North State Streets.

Individuals should exit their vehicles at the far end of the entrance road. They can then enter the church by the large wooden doors on the right and ride the elevator just inside the lobby on the right side to the second floor.

When exiting the elevators on the second floor, they should make a right, and they will be able to see the lower sanctuary entrance.

After graduation, the persons can exit in the same manner. Remember that the reception will be held in the Fellowship Hall on the lower level across from the elevators.
